DELIVERABLE D1.1

[Web site open](#)

[Author\(s\)/Editor\(s\): Valls, A. and Duro, L. \(Amphos21\)](#)

Date of issue of this report: **28/08/2017**

Report number of pages: **3 p**

Start date of project: **01/06/2017**

Duration: 48 Months

Project co-funded by the European Commission under the Euratom Research and Training Programme on Nuclear Energy within the Horizon 2020 Framework Programme		
Dissemination Level		
PU	Public	X
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the partners of the Disco project	
CO	Confidential, only for partners of the Disco project	

1 DisCo website

The project webpage has been set up and it is accessible to project participants since July 2017 at the following address: <https://www.disco-h2020.eu/>. A screenshot of the home page is shown in Figure 1.

Figure 1. Screenshot of the DisCo homepage.

The webpage is composed of a public site and a restricted area (intranet):

- Public webpage: it aims at providing public information of the project such as a description of the project (objectives, participants, etc.), outcomes (deliverables, newsletters) as well as public events or other information of interest.
- The intranet is restricted to members of the DisCo consortium and contains all the relevant documentation on the Project and allows sharing files between partners. Different profiles have been defined within the intranet in order to maintain the confidentiality between consortium groups (partners, EUG, AG...). More information is presented below.

Finally, the blog has been set up as a LinkedIn project group (Figure 2) which is intended as an additional communication tool aimed at facilitating exchange within the project community on project related topics and other subjects of potential interest for the partners.

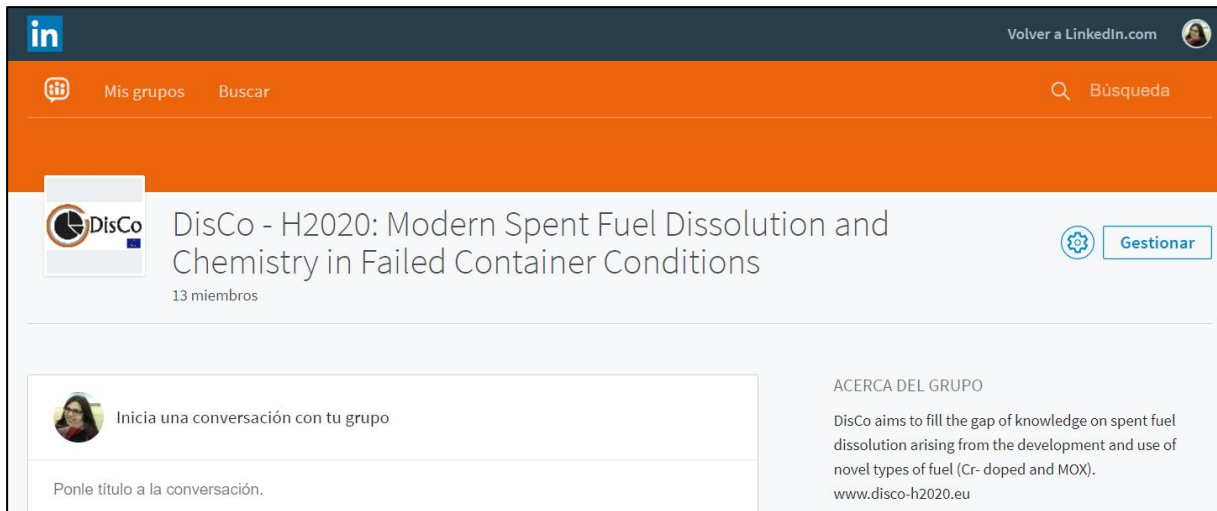

Figure 2. Screenshot of the DisCo LinkedIn group.

1.1 Intranet description

Different roles have been created to have specific folders restricted to the different DisCo consortium parties (Table 1). The members maintaining the webpage have the *Admin* role which give the role to users that are registered at the intranet. They have also access to all folders and can add, edit and delete any file.

The rest of the roles are described in Table 1 and are classified by the type of group within the consortium.

Table 1. Roles created at the intranet and its description.

Role	Role Definition
Admin	Backend and Frontend administrator. They give the role to the rest of intranet users.
ExCom	Frontend administrator (access to all folders). They can add, edit or delete any file.
Partners	Access to all folders in the frontend, except files/End Users Group and files/ExCom, can delete/edit only the files uploaded by himself/herself
AG	Access to all folders in the frontend, except files/End Users Group, files/ExCom and files/General Assembly, can delete/edit only the files uploaded by himself/herself
EUG	Access to all folders in the frontend, except files/General Assembly and files/ExCom, can delete/edit only the files uploaded by himself/herself
